

We are looking for

Agile Frontend Developer (m/f/d)

(PLACE OF EMPLOYMENT: VIENNA, 38,5H)

Content Garden Technologies is a 2013 founded marketing technology company with the vision to bring digital advertising to a new age. Native Advertising and Content Marketing are our playground where we are one of the major innovators in digital marketing. We are a young team working with great enthusiasm and dedication to change the digital world and our goal is to develop new advertising opportunities that people will enjoy consuming again.

#whatyoudo

- You develop solutions and are responsible for the implementation of next level websites in an agile team
- Design and implement high-quality user interfaces
- Analyze requirements and needs and develop design
- Create and review code
- Ensure software development quality through agile development methods
- Confident appearance at management level

#whatyouneed

- Several years of practical experience with software design & software architecture as well as with the implementation of software solutions
- Background and extensive experience with fundamental front end languages such as HTML, CSS, JavaScript or TypeScript
- Experience with JavaScript frameworks such as Vue.js, AngularJS or React
- Experience with database technologies such as MySQL, PostgreSQL and AWS RDS
- Knowledge of agile processes and principles as well as practical experience with agile development methods
- Practical experience with DevOps principles such as CI/CD tools
- Hands-on mentality and openness towards different cultures and backgrounds
- Experience with REST services in a microservice context (e.g., REST API, GraphQL)
- Know-how about complex system landscapes, design patterns and clean code approaches
- Experience in user experience design is a plus
- Sound user knowledge of common project management tools such as Atlassian or GitLab
- Good verbal communication in German and/or English
- Good problem-solving skills and attention to detail

#whatweoffer

- Active participation in the company
- Professional & personal development
- Owner-managed agile company with growth potential
- Self-determined and independent work
- Appreciative and open corporate culture and excellent working atmosphere
- In accordance with the collective agreement, we offer a minimum salary of 3.094,00 euros gross per month (38,5h/week). We are willing to offer overpayment according to your qualifications and working experience.

Sounds good? Submit your application along with a CV and a motivational letter via mail to jobs@content-garden.com
